

Goldman Sachs – Internal Audit Job Simulation

Forage Virtual Experience Program

Student: Ayush Jha

Program: Internal Audit Job Simulation

Platform: Forage

Completion Date: September 20, 2026

1. Introduction

This report documents the completion of the Goldman Sachs Internal Audit Job Simulation through Forage. The certificate records practical tasks covering Foundations of Internal Audit and Risk Assessment in Global Banking & Markets.

2. Objectives

The simulation provided practical exposure to internal audit concepts, audit-related thinking, risk assessment, and the evaluation of risks in a global banking and markets environment.

3. Practical Tasks

The certificate confirms completion of practical tasks in Foundations of Internal Audit and Risk Assessment in Global Banking & Markets.

4. Internal Audit

Internal audit activities involve understanding risks, evaluating controls and processes, documenting observations, and supporting improvements to organizational controls.

5. Risk Assessment

Risk assessment focuses on identifying and considering risks that may affect business processes and objectives. In the simulation, the context was Global Banking & Markets.

6. Learning Outcomes

The experience strengthened understanding of internal audit terminology, risk assessment, control-oriented thinking, and professional documentation.

7. Conclusion

The Goldman Sachs Internal Audit Job Simulation provided Ayush Jha with practical exposure to foundational internal audit and risk assessment activities through a structured Forage experience.

8. Certificate Verification

The certificate of completion was issued by Forage and records completion on September 20, 2026. It also identifies the two practical task areas listed above.
